Hi! It's Val 😊

Thank you for visiting my portfolio webpage!

Since my webpage is listed on a public GitHub repository, I decided not to publish my resume there to protect my personal information.

This document will serve as a placeholder for more projects I, hopefully, will be working on very soon!

If you're a recruiter and interested in working with me, feel free to reach out to my email which can be found in 'Contact Me' section, and I'll send you my resume.

 Happy to meet you and see you soon!
